EXPERIENCE

Apr 2020 — Present	**Founder/CEO , TalentMatch (Previously WeJapa)**	Nigeria , US & Canada

Hire & Pay pre-vetted tech talent (Developers, Designers, Data scientists, DevOps Engineers) from Africa. Backed by Microtraction (microtraction.com)

Sep 2019 — Sep 2020	**Software Engineer, GO**	Kigali, Rwanda

- Rebuilt the entire API (Node + Express) that powers the Web, USSD, & Mobile Apps
- Built & deployed Mobile apps (iOS & Android) using Flutter/Dart
- Managed backend deployment, CI/CD using OVH and TravisCI
- Continuously explored ways to improve our architecture over time

Feb 2018 — Aug 2019	**CTO, ABiTNetwork**	Dubai, UAE

- Designed, developed, and maintained multiple Blockchain-powered apps (Web & Mobile)
- Built and deployed, and managed APIs built in Node + Express
- Built an entire single sign-on (SSO) system for our platforms
- Migrated Legacy codebases (built in PHP) to Node Js

Jan 2017 — Jan 2018	**Student Software Engineer, Southern Arkansas University**	Magnolia, AR

- Did a complete revamp of the schools' Course Selection Tool making it 3x faster & easier to use
- Developed an iOS App to help improve the experiences of students, faculty & friends of the university by making information about the school easily accessible

---

EDUCATION

Aug 2016 — Dec 2017	**BSc Computer & Information Sciences, Southern Arkansas University (3.82/4.0)**	Magnolia, Arkansas

I considered college a total distraction at the time and was not fascinated by in-class lectures. I left to found FavCode54

SKILLS

Travis CI	Node.js
Adobe XD	Docker
Django	SQL
Vue JS	MySQL
AWS	Git
HTML5 & CSS3	Python
MongoDB	JavaScript

EXTRA-CURRICULAR ACTIVITIES

May 2021	**Hack the Rare Hackathon 2021 (Winner), Turing.com**	San Francisco, CA

Built and deployed a Patients Registry web app. Emerged winner
